RAILROADS SHED LIGHT ON THE MAIL PAY METHODS

DECIARING AGAINST CATHIFFT compensation whatever which is on theoderical, Plan of mapifests unfair PAX FOR TAKING MAILA The reflecade must provide car DECLARING AGAINST CATRIFFI

Final appeal to the public made today by the Railroads mai pay committee when a statement was issued declaring that the ex-isting lay for pathy railrouls for carring mails would be preferable to any unified or theoretical plan if the scrious inequities in the pres-ent law were corrected and it is was fully and importally adminis tered by the Postoffice Department

Jenath in Source Jr. Souato from Oregon and Chilrinan of the Senate Committee on Postoffice and Post Roads in September addresses a letter to the Chalrman of the Railroads Committee on Mall Pay asking certain questions hearing of the subject of mall 123 to common Reference to these ques tions and the Buswers given by the tions and the assessing fixen in the railroads were made public today in the extensent issued by the com-mittee on Mali ray. The following is to extract from a letter from Raiph Deters President of the roug-

Islant Railroid and Chaleman of the committee to Senitor Louine Quist in the year for the present plan of compensation of equitable one as between the Por enument and the railroad? If not in what respects and as to what classes of railroads is it inequitab). "

Ans er dhaidstig la ti marr with 1 the distinction of the povernment but has fafted t do justi c to the railways by reas sen of infragent weighing absence of the er nearly forty per cent of the space occupied as travelly, post offices tie performance withou pay of a de soil terminal incression service and the unjustifiable reduc then in pay by the Net of Congress dated March = 140 r supplemented by Ord a No 41 of the Posimusto Feneral changes, the divisor

The present tax is hard upor form t principles but should be so amond dus to provide— 12 14 1 P and file Ar of Mach 1307

The word is the free to go on with his work until the relation on the tramps at the other end is speaking town-resulton can then either be carried on using the toud speaking tramped, with the advantage of leaving the unsers hands both free for the purpose of turning up references taking down a message from detailon etc or the receiver may be lifted off the leater ment and used in the ordinary way. The loud speaking telephone s'voice is very similar to that of a gramu

The loud speaking telephones 'voice is very similar to that of a gramu phone and it is thus possible for the user of one of these instruments to move some little way from the telephone and 3ct hear when the person at the other end of the line is sprais.

SOLVES THE HATPIN TROUBLE

Guidetine introduced in the City of London Cuts Pins in Right

Length

Length

It is televed that the helpin difficulty has been solved by a little mithin that is about to be introduced in the London shops withs a correspondent of the xxx York Times The light can be about to be introduced to the light can be about to be introduced to the light can be about to be introduced to the light can be about to the sample of the supperfusions portions of the pine in future hatpins will be as it were cut to measure.

Whethere a woman buys a new hals she will be supplied with hatpins te fit made while she waits. Woman has being been hismond as calcious and careless because on the top of an omid bus or in the stable of a theater at a matines she suddenly swings round just missing the man at the bach with her set of millinery hayonets. But she could not help it Hatpins nee, made only in two or three sizes lik inches or almo sachos as the case might be and it invariably happened that the particular mounting at the head which took her fancy was only available in a largoly protrudius length.

Now this is to be altered. The shop per buys her hat and the gall swoman with the aid of her guilfoling, city the hatpin to the exert size. With just a twirl a mew point is surned in the place of the one belieded of an other twirl and the place is polished ready for use protruding only the fraction of an inch.

Mattresses for Plate Glass.

Mattresses for Plate Glass.
The mattresses whereon we sleep are by no means the only ones. There is for instance the restress that is placed in wagons for the conveyance of plate glass in safely.
These wagon mattresses are made of curled bair. They are of a thickness scarcely greater than that of the coverbet that is known as a comfortable. The extenders of plate glass transportation require that these must transportation require that there must transportation as a slight lump say where in the mattress might prove audicient to cause the breakage of the glass that rests upon it. In the venification of two plates of glass realing upon that lump at the sense time still greater danger on the glass in courted.

These blate glass mattresses cost according to size from \$50 to \$75. The mere remaking of such a mattress may cost from \$20 to \$25.—Har por's Weekly.

Bird Tribunals.

Rayens startings and crows are believed to hold courts of justice to muture to us purchast at to ellenders. Some times they see mile in great much reason if they would give, wrea' dignity the creasion. The trial sometimes apparently endures for many days. Some birds will at the conclave with lowered heads as the translates with the same merely recyclede heads on the learness and look grow while others now meat y creates a dignity and it is the conclusion. Acturally is subjuted the conclusion of the reason and the price of their numbers at the close or more of their numbers—at the close of the frist—and put them to death.

or more of their luminer—at the cost of the frist —and put them to death after which they dispersed in orderly fashion and went back quirtly to their

SALE CLEARANCE

Continues During Coming Week.

In spite of tremendous advances in Goods, we are making record-breaking prices for this Sale.

During Thursday's rush we were forced to lock our doors several times to keep down the crowd, so the people inside could be waited on.
